

74-series IC data sheet index

These documents are in PDF format, so may take a while to appear

<u>74LS00</u>	4x Two input NAND
<u>74LS01</u>	4x Two input NAND, Open collector
<u>74LS02</u>	4x Two input NOR
<u>74LS03</u>	4x Two input NAND, Open collector
<u>74LS04</u>	6x Inverter (NOT)
<u>74LS05</u>	6x Inverter (NOT), Open collector
<u>74LS06</u>	6x Inverter (NOT), High voltage Open collector
<u>74LS07</u>	6x Buffer (NO-OP), High voltage Open collector
<u>74LS08</u>	4x Two input AND
<u>74LS09</u>	4x Two input AND, Open collector
<u>74LS10</u>	3x Three input NAND
<u>74LS11</u>	3x Three input AND
<u>74LS12</u>	3x Three input NAND, Open collector
<u>74LS13</u>	2x Four input, Schmitt Trigger NAND
<u>74LS14</u>	6x Inverter (NOT), Schmitt Trigger
<u>74LS15</u>	3x Three input AND, Open collector
<u>74LS16</u>	6x Inverter (NOT), High voltage Open collector
<u>74LS17N</u>	6x Buffer (NO-OP), High voltage Open collector
<u>74LS19</u>	6x Inverter (NOT), Schmitt Trigger
<u>74LS20</u>	2x Four input NAND
<u>74LS21</u>	2x Four input AND
<u>74LS22</u>	2x Four input NAND, Open collector
<u>7423</u>	2x Four input NOR with Strobe
<u>7425</u>	2x Four input NOR with Strobe
<u>74LS26</u>	4x Two input NAND, High voltage
<u>74LS27</u>	3x Three input NOR
<u>74LS28</u>	4x Two input NOR
<u>74LS30</u>	Eight input NAND
<u>74LS31</u>	6x DELAY (6nS to 48nS)
<u>74LS32</u>	4x Two input OR
<u>74LS33</u>	4x Two input NOR, Open collector
<u>74LS37</u>	4x Two input NAND
<u>74LS38</u>	4x Two input NAND, Open collector
<u>74LS39</u>	4x Two input NAND, Open collector

74LS40	4x Two input NAND, Open collector
<u>74LS42</u>	Four-to-Ten (BCD to Decimal) DECODER
74LS45	Four-to-Ten (BCD to Decimal) DECODER, High current
<u>74LS46</u>	BCD to Seven-Segment DECODER, Open Collector, lamp test and leading zero handling
74LS47	BCD to Seven-Segment DECODER, Open Collector, lamp test and leading zero handling
<u>74LS48</u>	BCD to Seven-Segment DECODER, lamp test and leading zero handling
<u>74LS49</u>	BCD to Seven-Segment DECODER, Open collector
7450	2x (Two input AND) NOR (Two input AND), expandable
<u>74LS51</u>	(a AND b AND c) NOR (c AND e AND f) plus (g AND h) NOR (i AND j)
7453	NOR of Four Two input ANDs, expandable
<u>74LS54</u>	NOR of Four Two input ANDs
<u>74LS55</u>	NOR of Two Four input ANDs
<u>74LS56P</u>	3x Frequency divider, 5:1, 5:1, 10:1
<u>74LS57P</u>	3x Frequency divider, 5:1, 6:1, 10:1
74S64	4-3-2-2 AND-OR-INVERT
74S65	4-3-2-2 AND-OR-INVERT
<u>74LS68</u>	2x Four bit BCD decimal COUNTER
<u>74LS69</u>	2x Four bit binary COUNTER
7470	1x gated JK FLIPFLOP with preset and clear
7472	1x gated JK FLIPFLOP with preset and clear
<u>74LS73</u>	2x JK FLIPFLOP with clear
<u>74LS74</u>	2x D LATCH, edge triggered with clear
<u>74LS75</u>	4x D LATCH, gated
<u>74LS76A</u>	2x JK FLIPFLOP with preset and clear
74LS77	4x D LATCH, gated
<u>74LS78A</u>	2x JK FLIPFLOP with preset and clear
<u>74LS83</u>	Four bit binary ADDER
<u>74LS85</u>	Four bit binary COMPARATOR
<u>74LS86</u>	4x Two input XOR (exclusive or)
<u>74LS90</u>	Four bit BCD decimal COUNTER
<u>74LS91</u>	Eight bit SHIFT register
74LS92	Four bit divide-by-twelve COUNTER
<u>74LS93</u>	Four bit binary COUNTER
74LS94	Four bit SHIFT register
<u>74LS95B</u>	Four bit parallel access SHIFT register
74LS96	Five bit SHIFT register
<u>74LS107A</u>	2x JK FLIPFLOP with clear
<u>74LS109A</u>	2x JK FLIPFLOP, edge triggered, with preset and clear
<u>74LS112A</u>	2x JK FLIPFLOP, edge triggered, with preset and clear

<u>74LS114A</u>	2x JK FLIPFLOP, edge triggered, with preset
<u>74LS116</u>	2x Four bit LATCH with clear
<u>74121</u>	Monostable Multivibrator
<u>74LS122</u>	Retriggerable Monostable Multivibrator
<u>74LS123</u>	Retriggerable Monostable Multivibrator
<u>74S124</u>	2x Clock Generator or Voltage Controlled Oscillator
<u>74LS125</u>	4x Buffer (NO-OP), (low gate) Tri-state
<u>74LS126</u>	4x Buffer (NO-OP), (high gate) Tri-state
<u>74LS130</u>	Retriggerable Monostable Multivibrator
<u>74128</u>	4x Two input NOR, Line driver
<u>74LS132</u>	4x Two input NAND, Schmitt trigger
<u>74S133</u>	Thirteen input NAND
<u>74S134</u>	Twelve input NAND, Tri-state
<u>74S135</u>	4x Two input XOR (exclusive or)
<u>74LS136</u>	4x Two input XOR (exclusive or), Open collector
<u>74LS137</u>	3-8 DECODER (demultiplexer)
<u>74LS138</u>	3-8 DECODER (demultiplexer)
<u>74LS139A</u>	2x 2-4 DECODER (demultiplexer)
<u>74S140</u>	2x Four input NAND, 50 ohm Line Driver
<u>74143</u>	Four bit counter and latch with 7-segment LED driver
<u>74LS145</u>	BCD to Decimal decoder and LED driver
<u>74LS147</u>	10-4 priority ENCODER
<u>74LS148</u>	8-3 gated priority ENCODER
<u>74LS150</u>	16-1 SELECTOR (multiplexer)
<u>74LS151</u>	8-1 SELECTOR (multiplexer)
<u>74LS153</u>	2x 4-1 SELECTOR (multiplexer)
<u>74LS154</u>	4-16 DECODER (demultiplexer)
<u>74LS155A</u>	2x 2-4 DECODER (demultiplexer)
<u>74LS156</u>	2x 2-4 DECODER (demultiplexer)
<u>74LS157</u>	4x 2-1 SELECTOR (multiplexer)
<u>74LS158</u>	4x 2-1 SELECTOR (multiplexer)
<u>74159</u>	4-16 DECODER (demultiplexer), Open collector
<u>74LS160A</u>	Four bit synchronous BCD COUNTER with load and asynchronous clear
<u>74LS161A</u>	Four bit synchronous binary COUNTER with load and asynchronous clear
<u>74LS162A</u>	Four bit synchronous BCD COUNTER with load and synchronous clear
<u>74LS163A</u>	Four bit synchronous binary COUNTER with load and synchronous clear
<u>74LS164</u>	Eight bit parallel out SHIFT register
<u>74LS165</u>	Eight bit parallel in SHIFT register
<u>74LS166A</u>	Eight bit parallel in SHIFT register
<u>74LS169A</u>	Four bit synchronous binary up+down COUNTER

74LS170	4x4 Register file, Open collector
74LS174	6x D LATCH with clear
74LS175	4x D LATCH with clear and dual outputs
74LS170	Four bit parallel in and out SHIFT register
74LS180	Four bit parity checker
74LS181	Four bit ALU
74LS182	Look-ahead carry generator
74LS183	2x One bit full ADDER
74LS190	Four bit Synchronous up and down COUNTER
74LS191	Four bit Synchronous up and down COUNTER
74LS192	Four bit Synchronous up and down COUNTER
74LS193	Four bit Synchronous up and down COUNTER
74LS194	Four bit parallel in and out bidirectional SHIFT register
74LS195	Four bit parallel in and out SHIFT register
74LS198	Eight bit parallel in and out bidirectional SHIFT register
74LS199	Eight bit parallel in and out bidirectional SHIFT register, JK serial input
74LS221	2x Monostable multivibrator
74LS240	8x Inverter (NOT), Tri-state
74LS241	8x Buffer (NO-OP), Tri-state
74LS244	8x Buffer (NO-OP), Tri-state Line driver
74LS245	8x Bidirectional Tri-state BUFFER
74LS259	Eight bit addressable LATCH
74LS260	2x Five input NOR
74LS273	8x D FLIPFLOP with clear
74LS279	4x SR LATCH
74LS283	Four bit binary full ADDER
74LS373	8x Transparent (gated) LATCH, Tri-state
74LS374	8x Edge-triggered LATCH, Tri-state
74LS629	Voltage controlled OSCILLATOR
74LS688	Eight bit binary COMPARATOR
